

Financial Results Briefing for the Fiscal Year Ended March 31, 2025 and Overview of the New Medium-Term Management Plan

May 30, 2025

NIHON TOKUSHU TORYO CO., LTD.
(Stock Exchange Code: 4619, Tokyo Stock Exchange Standard Market)

01 Overview of Financial Results for the Fiscal Year Ended March 31, 2025 (FY24)

Overview of Consolidated Financial Results

In FY24, we exceeded our most recent financial results forecast, achieving the Medium-Term Management Plan targets for net sales, operating profit, ordinary profit, and profit; however, ROE remained at 8.9%.

(Million yen)

	FY23		FY24		YoY change	
	Actual results	Ratio	Actual results	Ratio	Amount	%
Net sales	64,693	—	66,060	—	+1,366	+2.1%
Operating profit	3,905	6.0	4,456	6.8	+551	+14.1%
Ordinary profit	5,963	9.2	6,709	10.2	+746	+12.5%
Profit attributable to owners of parent	3,947	6.1	4,942	7.5	+994	+25.2%
Basic earnings per share	¥181.57	—	¥227.24	—	+¥45.67	+25.2%
ROE	7.9%	—	8.9%	—	—	+1.0pt

Overview of Performance by Segment: Paints & Coatings-Related Business

Strong sales mainly related to large-scale renovation and repair work for condominiums drove higher revenues and profits.

■ Performance overview

(Million yen)

	FY23	FY24	YoY change	
			Amount	%
Net sales	20,612	23,722	+3,110	+15.1%
Segment profit	456	953	+496	+108.7%
Profitability	2.2%	4.0%		

■ Analysis of changes in profit

Overview of Performance by Segment: Automotive Products-Related Business

Sales fell due to reduced production by major customers, domestic automobile manufacturers; however, profit levels were sustained.

■ Performance overview

(Million yen)

	FY23	FY24	YoY change	
			Amount	%
Net sales	44,066	42,321	(1,744)	(4.0)%
Segment profit	3,439	3,493	+53	+1.6%
Profitability	7.8%	8.3%		

■ Analysis of changes in profit

Composition of Net Sales (By Segment/Main Product)

* Sharing and leveraging technology and knowledge for paints & coatings / automotive products

Consolidated Balance Sheets

(Million yen)

	FY23		FY24		YoY change
	Actual results	Ratio	Actual results	Ratio	Amount
Current assets	38,555	44.1	38,327	45.0	(228)
Non-current assets	48,900	55.9	46,916	55.0	(1,984)
Property, plant and equipment	22,422	25.6	21,399	25.1	(1,023)
Intangible assets	1,236	1.4	1,292	1.5	+56
Investments and other assets	25,241	28.9	24,224	28.4	(1,017)
Total assets	87,456	100.0	85,243	100.0	(2,212)
Current liabilities	21,405	24.5	16,122	18.9	(5,282)
Non-current liabilities	6,485	7.4	5,006	5.9	(1,479)
Total liabilities	27,890	31.9	21,129	24.8	(6,761)
Shareholders' equity	42,608	48.7	46,531	54.6	+3,923
Accumulated other comprehensive income	10,789	12.3	10,926	12.8	+137
Non-controlling interests	6,168	7.1	6,656	7.8	+488
Total net assets	59,565	68.1	64,114	75.2	+4,548

Consolidated Statements of Cash Flows

(Million yen)

	FY23	FY24	YoY change
Cash and cash equivalents at beginning of period	10,853	15,876	+5,023
Cash flows from operating activities	9,317	3,119	(6,198)
Cash flows from investing activities	533	(1,237)	(1,770)
Cash flows from financing activities	(5,092)	(2,037)	+3,055
Effect of exchange rate change on cash and cash equivalents	+265	+303	+38
Cash and cash equivalents at end of period	15,876	16,024	+148

02 Overview of Financial Forecast for the Fiscal Year Ending March 31, 2026 (FY25)

Summary of Consolidated Financial Forecast for the Fiscal Year Ending March 31, 2026

(Million yen)

	FY24		FY25		YoY change	
	Actual results	Ratio	Forecast	Ratio	Amount	%
Net sales	66,060	—	63,000	—	(3,060)	(4.6)%
Operating profit	4,456	6.7	2,700	4.3	(1,756)	(39.4)%
Ordinary profit	6,709	10.2	5,100	8.1	(1,609)	(24.0)%
Profit attributable to owners of parent	4,942	7.5	4,000	6.3	(942)	(19.1)%
Basic earnings per share	¥227.24	—	¥183.85	—	(¥43.39)	(19.1)%

* Forecast for FY25

Share of profit of entities accounted for using equity method: Approx. ¥1.83 billion

Assumed exchange rate: US\$1 = ¥144

Results by Segment

Paints & coatings-related business

Automotive products-related business

(Million yen)

	FY24	FY25	YoY change %
Net sales	23,722	21,000	(11.5)%
Segment profit	953	550	(42.3)%
Profitability	4.0%	2.6%	

Work-related sales, strong in FY24, are expected to level off, with profitability projected to decline due to higher personnel and other costs.

(Million yen)

	FY24	FY25	YoY change %
Net sales	42,321	42,000	(0.8)%
Segment profit	3,493	2,150	(38.5)%
Profitability	8.3%	5.1%	

Net sales are expected to remain largely unchanged YoY, with profitability projected to decline due to higher raw material, personnel, and other operational costs.

* U.S. tariff impact not yet reflected

Capital Expenditures and Depreciation

■ Capital expenditures (Construction basis)

■ Depreciation

Plan for Shareholder Returns

■ Shareholder returns

We expect an annual dividend of ¥110 per share for FY25, up ¥20 YoY, in line with the shareholder returns policy under the Medium-Term Management Plan (see page 34).

Annual dividends
per share (Yen)

Trends in annual dividends per share and consolidated payout ratio

Consolidated
payout ratio (%)

* The figure in FY19 (114th) includes the 90th anniversary commemorative dividend of ¥2 (ordinary dividend of ¥38).

Current Perspectives on Market Valuation and Return on Capital

PBR remains low; profitability is improving, with ROE trending within the 7–8% range.

Trends in PBR

PBR continues to stay below 1x.

- Priorities include improving capital efficiency given the cost of equity, and fostering market expectations for growth potential.

Trends in ROE

ROE remained in the 7–8% range, below the 10% target.

- Profit margin, the main factor behind lower ROE, is recovering; improving profitability is an ongoing priority.
- Proper application of financial leverage, along with a review of idle and low-turnover assets, is also necessary.

Key Priorities for Improving PBR

Steadily advancing the following priorities to sustainably enhance corporate value (PBR)

Corporate value (PBR) enhancement

ROE improvement (Price Earnings Ratio)

Profitability enhancement

- Optimize product portfolio
- Improve operating profit ratio
- Reduce costs and enhance operational efficiency
- Expand sales channel to overseas market
- Increase product value-added

Capital efficiency improvement

- Optimize equity structure
- Divest idle and low-turnover assets
- Apply appropriate financial leverage
- Eliminate cross-shareholdings

PER enhancement (Stock price growth rate)

Optimization of cost of equity

- Strengthen shareholder returns
- Ensure transparent management
- Enhance information disclosure
- Ensure sound capital management

Expectations for growth potential

- Advance sustainable technology development
- Develop human resources and organizational capabilities
- Utilize data and promote digital transformation (DX)
- Develop new businesses and markets
- Expand revenue streams from existing businesses

03 New Medium-Term Management Plan: Basic Policy

Positioning the New Medium-Term Management Plan

FY29 target: Growth through business field expansion

Achieve ¥80.0bn net sales and 10.0%+ ROE

New Medium-Term Management Plan: Basic Policy

04 New Medium-Term Management Plan: Management Targets

Management Targets

We aim to elevate our core strategies (business, financial and capital, and management foundation strategies) to a new level, targeting a 10%+ ROE by FY29.

(Million yen)	FY24 Actual results	FY29 Plan	
			vs. FY24
Net sales	66,060	80,000	+21.1%
Operating profit	4,456	6,100	+36.9%
Ordinary profit	6,709	8,000	+19.2%
Profit attributable to owners of parent	4,942	6,500	+31.5%
Basic earnings per share	¥227.24	¥304.18	+¥76.94
ROE	8.9%	10.0%+	+1.1pt+

Targets by Segment

We thoroughly implement the basic strategies for each business to steadily achieve the target ratio of operating profit.

		FY24 Actual results	FY29 Plan	vs. FY24
(Million yen)				
Paints and Coatings	Net sales	23,722	26,600	+12.1%
	Operating profit	953	1,600	+67.7%
	Operating profit ratio	4.0%	6.0%	+2.0pt
Automotive Products	Net sales	42,321	53,400	+26.2%
	Operating profit	3,493	4,500	+28.8%
	Operating profit ratio	8.3%	8.4%	+0.1pt

05 Business Strategies

Current Business Environment (Paints and Coatings / Automotive Products)

Business
environ-
ment

Paints and Coatings

- **Mature domestic market for paints and coatings used in building materials**
- **Rising demand in emerging markets overseas, driven by economic growth in Asia**
- **Soaring raw material prices amid global instability, etc.**
- **Growing demand for environmentally responsive paints and coatings**
- **Growing stock of condominiums approaching repair age**

Business
environ-
ment

Automotive Products

- **Advancement of CASE (Connected, Autonomous, Shared, Electric) trends**
- **Need to optimize production and supply systems amid shifting trade policies**
- **Adaptation to stricter environmental regulations (e.g., CO₂ emissions, fuel efficiency, and recycling rates under the ELV Directive in Europe)**

Paints and Coatings

Numerical Targets and Basic Strategies

Numerical targets

Net sales

¥26.6_{bn}

Operating profit

¥1.6_{bn}

Operating profit ratio

6.0%

Basic strategies

Expand market share in existing businesses

- Pursue market share expansion in floor-coating materials, focusing on thick-film epoxy floor coatings
- Enhance response to the environmentally responsive product market by renewing and expanding the lineup of water-base floor-coating materials
- Expand the lineup of antistatic coatings

Strengthen sales capabilities in the Tokyo metropolitan area and surrounding eastern Japan region

- Increase core personnel in the Tokyo metropolitan area to strengthen sales capabilities
- Promote diversified channel development through trade shows and cross-industry associations

Establish a vertically integrated value chain

- Reduce external dependence to build a stable supply system and ensure resilient business operations amid external changes
- Develop high-value-added products using in-house technologies and accelerate entry into new markets

Develop high-value-added products

- Develop high-performance water-base coatings aligned with growing sustainability demands
- Achieve multifunctionality with composite functional coatings
- Promote carbon neutrality through the development of biomass products

Positioning floor-coating materials as the second core business, following waterproof materials

Sales contribution of floor-coating materials
Up 5%*

* Composition of paints and coatings product sales by segment

01 Enhance earning power

Floor-coating materials sales growth

- Improve efficiency by introducing mechanized, labor-saving methods for applying thick-film epoxy floor-coating materials
- Research innovative production methods through industry-academia collaboration

Optimization of product portfolio

- Improve profitability by renewing main products
- Streamline unprofitable products through consolidation

02 Create prospective core businesses

Establish Marketing & Strategy Office within the Paints & Coatings Group

- Develop strategies and businesses to promote higher value-added product

* Contracted work is plotted by non-consolidated shipment volume; circle size indicates consolidated revenue, including construction work sales.

Paints and Coatings

Strengthening Sales Capabilities in the Tokyo Metropolitan Area and Surrounding Eastern Region

Deploying human resources to the Tokyo metropolitan area

Accelerate growth by concentrating resources in Japan's largest markets

■ Reinforce core personnel at the Tokyo Sales Operation Div.

- Enhance expertise and proposal skills to swiftly and accurately respond to large projects and win new customers in the Tokyo metropolitan area
- Assign multiple dedicated personnel and expand on-site presence at key partner dealerships

■ Deploy more personnel to high-potential areas

- Increase relocated staff in areas with strong potential
- Drive community-based sales to capture local leading companies and new demand

Deepen market penetration through direct sales and channel expansion

■ Drive direct sales to owners and general contractors

- Boost direct proposal sales to owners and general contractors in growth areas: logistics warehouses, precision parts plants, and infrastructure facilities
- Pursue large project orders, enhancing brand recognition

■ Actively engage in trade shows and cross-industry associations

- Exhibit at trade shows and strengthen collaboration with cross-industry associations to uncover new customers and applications
- Create new demand outside the conventional framework

Establishing an optimal value chain to enhance profitability and stabilize the supply system

STEP
01

R&D

Strengthen the technology base via in-house production

- Accelerate development of high-value-added products and new product launches

STEP
02

Raw materials procurement

Enhance supply chain resilience

- Reduce supplier dependence and build a stable raw material supply system to minimize supply and price fluctuation risks
- Ensure business continuity amid external market fluctuations

STEP
03

Manufacturing

Drastically strengthen the revenue structure

- Enhance profitability by improving the raw material cost ratio
- Cut procurement costs by 15–20% by producing certain raw materials in-house

STEP
04

Sales

Launch differentiated products utilizing in-house technologies

- Launch high-value-added products
- Promote carbon neutrality by developing biomass products as a strategic pillar

Advancing technological development to achieve 5%+ operating profit by FY29

New Medium-Term Management Plan (FY25 to FY 29)

Phase 1 (FY21 to FY24)

Establishing basic technologies

Technology establishment

Technology establishment

- Establish superhydrophobic / superhydrophilic technologies

Existing technology

- Establish in-house resin design technology

▲ Water droplets remain spherical on the surface coated with superhydrophobic technology

Phase 2–(1) (FY25 to FY27)

Developing applications of high-performance technologies and transforming existing technologies

Technology establishment

High-performance technologies

- Develop applications of superhydrophobic/superhydrophilic technologies
- Establish technologies for optical functionality/nano dispersion
- Acquire new certifications for aircraft paints

Existing technologies

- Pilot new manufacturing methods (automation and process optimization)
- Develop coatings for wind power generation blades by applying aircraft paint technology

Market launch

Existing technology

- Begin partial in-house production by synthesizing resin

Phase 2–(2) (FY28 to FY29)

Achieving profitability improvement by advancing existing technologies

Technology establishment

High-performance technologies

- Establish high-performance waterborne coatings technology
- Establish technologies applicable to biomass products

Existing technology

- Establish technologies to be applied to exclusive overseas products

Market launch

High-performance technologies

- Commercialize superhydrophobic/superhydrophilic technologies (profitability improvement through high-value-added product launches)
- Release aircraft paints/newly certified products

Existing technologies

- Improve profitability by synthesizing resin (in-house production)
- Commercialize coatings for wind power generation blades

Future growth plan (FY30 onward)

Expanding into growth areas/overseas markets

Technology establishment

High-performance technologies

- Develop/commercialize high-performance waterborne coatings technology
- Develop/commercialize biomass products
- Apply optical functionality/nano-dispersion technologies to products

Existing technology

- Roll out products to overseas markets

Numerical targets

Net sales

¥53.4bn

Operating profit

¥4.5bn

Operating profit ratio

8.4%

Basic strategies

Develop technologies and materials to reduce environmental impact

- [Industry first] Launch products made from 100% recycled materials ⇒ Complete product development for undercovers
- Expand applications to other exterior and interior products ⇒ Halve development time by concentrating resources

Expand overseas markets

- Develop the Indian market (advanced development for Japanese OEMs under contract)
- Strengthen support for quality/local production
- Flexibly respond to production increase in North America

Reform structure to enhance profitability

- Advance efforts in carbon neutrality, labor saving, and cost reduction ⇒ Automate processes and adopt new production methods
- Strengthen production systems in Kyushu and Tohoku regions (responding to customer strategy) ⇒ Redeploy the Higashi Kyushu Plant and reinforce collaboration with contract manufacturers in Tohoku
- Consolidate production sites ⇒ Combine parts production and assembly at a single site (Smart Plant)

Develop new products (fields) leveraging noise and vibration (NV) technology

- Develop modules with NV-control performance ⇒ Enter the market as a new panel supplier and broaden the proposal scope
- Strengthen development and production systems through strategic M&A and other initiatives

Automotive Products

Developing Technologies and Materials to Reduce Environmental Impact

Developing environmentally responsive parts utilizing proprietary technologies and implementing market expansion strategies

Industry first

Technology development and commercialization for 100% recycled materials

Responding to the growing complexity of automobile recycling amid rising environmental consciousness

New product offering model leveraging functional fiber technology

Product portfolio diversification

- ✓ Pursue market share expansion by adding highly recyclable parts and styling parts to the portfolio

- ✓ Enhance environmentally responsive products while utilizing existing technologies

- ✓ Extend application to styling parts alongside conventional functional parts

Automotive Products

Strengthening Collaboration with Technical Partners and Overseas JVs

Expanding revenue in growth markets through optimized production and supply systems and enhanced global collaboration

India

- Strengthen collaboration with technical partners in customer support to solidify the revenue base in growth markets
- Focus on expanding sales to automobile manufacturers based on pilot orders received for the new BEV model

Autoneum Nittoku Sound Proof Products India Pvt. Ltd. (India)

Expand revenue in growth markets

Sales and profit

Approx. 2x

(vs. the final year, FY24)

North America

- Propose products tailored to electric vehicle needs
- Focus on expanding sales of floor carpets and trunk systems based on orders for new Japanese BEV interior parts

Company accounted for using equity method

UGN

Equity-method gain

Approx. 1.7x

(vs. the final year, FY24)

UGN, Inc. Head Office (U.S.)

Southeast Asia

- Capture growing demand, including from emerging automobile manufacturers, and maintain proactive investment amid population and economic growth
- Focus on expanding floor carpet sales based on new orders for Japanese SUV models

Consolidated subsidiary

TNA

PT. TUFINDONITOKUJAUONEUM (Indonesia)

Establishing a general-purpose line: 2x productivity with less labor, space, and energy—30% lower CO₂ emissions

01

Labor-saving

- **Introduction of robotic and AI technologies**

In-house technologies

Automate labor-intensive processes and replace manual visual inspections

- **Process automation and advanced data linkage**

Reduce workload through automated data linkage among equipment

02

Space-saving and standardization

- **Modular design and standardization of equipment**

Redesign equipment to be more compact (standardization)

- **Digital twin simulation / Production visualization**

Promote DX to maximize efficiency in minimal space

03

Energy-saving

- **High-speed thermo-forming technology**

In-house technologies

Reduce energy consumption through shorter processing time and improved heating efficiency

Automotive Products

Developing New Products Leveraging NV Technology

Marketing modular products with NV-control performance

Drivers behind the need for modularization

1. Improved assembly efficiency and cost reduction

To enhance manufacturing efficiency and reduce costs by utilizing pre-assembled modules consisting of multiple parts

2. Weight reduction and environmental adaptation (aligned with decarbonization trends)

To promote the use of lightweight materials to reduce vehicle weight and environmental impact

3. Faster development and greater flexibility

To establish development systems to respond swiftly to market changes and diverse needs

Development of modules with NV-control performance

Pre-assembled modules consisting of parts helps streamline the car assembly process. Technical development targets interior and exterior noise reduction through integrated soundproofing technology, along with faster production.

Enhancing modular product development and market rollout following entry as a supplier of trunk panels

Key
measures

Promote proposal-driven, modular product development by integrating our diverse technologies, including noise and vibration control

Secure and strengthen competitiveness in the rear parts field

Strengthen development and production systems through strategic M&A and other initiatives

06 Financial and Capital Strategies

Shareholder Returns Policy: Strengthen Shareholder Returns

Implementing performance-based distribution and flexible share buybacks under the new Medium-Term Management Plan

	Previous plan	New Medium-Term Management Plan
Shareholder returns policy	Payout ratio 30% FY21 to FY24	Total payout ratio 70% FY25 to FY29
Total shareholder returns	Approx. ¥4.7 bn 4-year cumulative total (previous plan)	¥16.0 bn – ¥17.0 bn 5-year cumulative total (new plan)
Approach to shareholder returns	Make a decision based on stable dividends, by comprehensively taking into account such factors as the enhancement of funds for strategic investments, financial condition, and profit levels, and dividend payout ratio (target of 30%).	● Achieve appropriate financial condition based on the profit levels, and <u>implement bold shareholder returns to reach a 10% ROE by FY29</u> ● Prioritize dividends for shareholder returns; <u>conduct share buybacks as needed after the elimination of cross-shareholdings</u>

Cash Allocation: Promoting Strategic Growth Investments

Executing strategic growth investments and capital expenditures while strengthening shareholder returns

Cash allocation FY25 to FY29

07 Management Foundation Strategies

Advancing ESG Management

Advancing ESG-focused management as a key driver of sustainable growth

Governance

Corporate governance initiatives

- I. Enhance Board composition
- II. Change directors' term of office
- III. Strengthen Group governance and collaboration
- IV. Review organizational structure and regulations
- V. Reinforce the compliance system

* See the next page for governance.

Social

Social responsibility initiatives

- I. Support diverse workforce participation and enhance job satisfaction
- II. Create a safe and supportive workplace
- III. Establish a human rights due diligence framework and strengthen supply chain management
- IV. Engage with local communities

Environment

Environmental protection initiatives

- I. Reduce environmental impact across the entire product life cycle
- II. Ensure comprehensive energy-saving efforts and achieve carbon neutrality
- III. Increase recycling of plant and facility waste and raise recycling rates
- IV. Promote green procurement practices

Strengthening Governance Framework

PART 01

Enhancement of Board composition

To be adopted

- Increase in the ratio of Independent Outside Directors
Strengthen the Board's independence and enhance its effectiveness
- Appointment of a female Outside Director with corporate management experience
Enhance Board diversity by appointing Ms. Asaka as an independent female Outside Director with corporate management experience at other companies and a wealth of expertise

PART 02

Change in Directors' term of office

To be adopted

- Term shortened from two years to one year

PART 03

Enhancement of the Executive Officer System

Implemented

- Swifter decision-making on management and strengthened business execution functions

PART 04

Restricted share compensation plan

Implemented

- Incentives for Directors to support sustained enhancement of corporate value and further promote the sharing of value with shareholders

Current framework

New framework

Candidate for new
Outside Director

Kinuyo Asaka

- Abundant experience in corporate management
- A high level of expertise in developing and executing marketing strategies

August 2002

Representative Director of Paramount Home Entertainment (Japan) Ltd.

May 2011

CEO of Kadokawa Intercontinental Group Holdings Limited

June 2017

Vice President and General Manager, International Sales Department I of Nidec-Shimpo Corporation

September 2018

Director of New Chemical Trading Co., Ltd.

April 2019

Managing Director of New Chemical Trading Co., Ltd.

October 2019

Director of Asaka Club Corporation (in-service)

Developing Human Capital

Enhancing human capital (human assets) to achieve both sustainable growth and “Innovation”

Performance capability
to promote solid growth 

Enabling autonomous career development and growth

- Promote participation of the senior workforce and extend the retirement age
- Implement an open internal recruitment program
- Enhance education and training programs; expand participation opportunities

Maximizing individual potential and enhancing management and organizational capabilities

- Promote measures to enhance engagement
- Develop and acquire next-generation leaders and executives
- Enhance workforce visibility through talent management

A challenge-driven mindset
to evolve beyond stability 

Enhancing adaptability and capabilities to create future innovation

- Promote women's participation (raise the ratio of female managers); increase diversity
- Review seniority-based wages and revise the personnel system
- Implement proposal-based projects

Fostering an organization culture that takes on challenges

- Institutionalize personnel transfers across business fields
- Review the recognition system (increase motivation)
- Build a platform to promote new businesses

Fostering an Organizational Culture That Takes on Challenges

Toward an organization where taking on challenges is the norm Empowering everyone to take initiative

Fostering an organizational culture that takes on challenges, enabling everyone to think and act independently to create new value—toward a stronger, more flexible company

01

Define a purpose

02

Introduce a new personnel system

03

Review the recognition system

04

Establish and operate a corporate university

05

Implement an open internal recruitment program

06

Create new businesses

07

Ensure a supportive work environment

08

Strengthen Group collaboration and governance

Promoting DX

DX strategy (Basic policy for promoting DX)

- Transform the organization to adapt to social and economic change in the midst of rapidly evolving digital technology
- Transform operational processes to align with shifting work styles and enhance productivity

Focus areas

Core system modernization

Adapt to diverse business models and support existing and new business expansion

Data analysis and utilization promotion

Facilitate accurate and timely decision-making and management judgment

Citizen development environment deployment

Enhance competitiveness through employee-led operational improvements

Operational reform and standardization

Enhance sales and profits, internal controls, operational efficiency, and product quality

Information security enhancement

Pursue top-tier industry standards to support digital promotion

AI utilization

Streamline and upgrade development processes and visual inspection

New business creation

Transform industry structure and sales and procurement models, and cultivate partnerships

Customer engagement reinforcement

Apply data and digital technologies to marketing and sales strategies
